### Montana Hunter Access Laws

- All hunters should have a strong understanding of Montana's access laws. State of Montana law requires every hunter to have permission from the landowner, lessee or agent before hunting on private property regardless of whether the land is posted or not. It is every hunter's responsibility to know the land ownership of the area he intends to hunt and any land use restrictions that may apply there.
- Federal and state lands are managed by different agencies under different laws and regulations. It is important to know which lands you are using and what laws and regulations apply
