Golden Triangle Cropping Seminar

Tuesday, January 8th, 2019
9:00-11:00 am: Morning Session
11 am – 1 pm: Lunch + Guest Speaker
1:00-3:00 p.m.: Afternoon Session

Northern Ag Research Center Meeting Room
3710 Assiniboine Rd; Havre, MT

8:30 a.m.  Register --- BRING LICENSE NUMBER for Credits

9-10 a.m.  PARAQUAT SAFETY - by Dr. Cecil Tharp, MSU Pesticide Specialist.
Topic: the history of paraquat; toxicity; symptoms of exposure, and ways to protect applicators.  ALSO: new EPA labels & mitigation measures

10-11 a.m.  MARKETING & RISK MANAGEMENT OF PULSE CROPS – By Jeff Rumney, USDA Dry Pea & Lentil Council’s Vice President.
Topic: in depth look at marketing, hedging and future market outlooks for pulses nationally and worldwide.

1-2 p.m.  INTEGRATED WEED MANAGEMENT AND HERBICIDE RESISTANCE - By: Tim Seipel, MSU Plant & Agriculture Ecology Research Scientist,
Topic: Designing integrated weed management plans that allow producers to be effective with their operations, particularly for weeds and crops in semi-arid systems. Will also cover: the evolution of herbicide resistance, weed management in no-till systems and specific Montana herbicide related issues.

2-3 p.m.:  PEST MANAGEMENT (DISEASE, INSECT AND WEEDS) USING DIVERSE CROPPING SYSTEMS – By: Jed Eberly, MSU Central Agriculture Research Center
Topic: The diversity of cropping systems and how they can be used to improve soil health and resiliency in Montana crops thus enhancing production and long-term farming sustainability of dryland operations.
